Gr 3-5-The Marquis de Lafayette is famous for helping George Washington and the Continental Army defeat the British. The idea of exploring the development of his relationship with the American general in picture-book form is intriguing, but while this version is long on historical content, it is short on flair. The research is admirable. Direct quotations from Lafayette are featured on almost every page, and lists of sources and places to visit, as well as time lines of the men's lives, provide excellent historical background. However, these figures do not come to life. The author concentrates

on Lafayette arriving in America, becoming part of Washington's army, and proving his mettle at the Battle of Brandywine. The large illustrations end when Washington visits the wounded Lafayette and instructs the doctor to care for him "as if he were my son," demonstrating the real affection that developed between them. However, the account goes on for three more pages, illustrated by much smaller images. The awkward transition complicates the book's ability to find an audience. Younger readers who are drawn to the picture-book format may lose interest in the text-heavy later part, while older students studying the Revolutionary War may find the book too simplistic for their needs. The pen-and-ink illustrations with digital coloring are appealing for the most part, but they have an odd flatness that detracts from their overall effect. Spreads that should have depth and a vanishing point seem more one-dimensional than two. French phrases incorporated into the text are defined at the end of the book, not in context, which may be cumbersome for some readers.-Lucinda Snyder Whitehurst, St. Christopher's School, Richmond, VA (c) Copyright 2011. Starred Review In 1777, the 19-year-old Marquis de Lafayette defied his king's orders and left France to fight for freedom in America. Though initially expecting little, Washington found the young French nobleman idealistic, courageous, and eager to learn everything he could from the general he idolized. Congress had refused to give Lafayette a command, but he proved his mettle at the Battle of Brandywine, where he rallied retreating troops and suffered a leg wound. The doctor was told by Washington to treat him as he would his son, "for I love him with the same affection." The picture-book story rather abruptly ends there, though the next three pages continue the vivid account of Washington and Lafayette's revolutionary friendship in an information-packed narrative, followed by detailed time lines of their lives. In addition, there are suggestions of places to visit, a source bibliography, and a glossary translating the French words and phrases sprinkled through the text. Short passages from Lafayette's letters and other writings appear in small, scroll-like boxes on some double-page spreads. Kozjan's illustrations, lively ink drawings digitally enhanced with color and subtle shading, will engage readers, as they bring the period settings to life. This oversize, handsome package will introduce a little-known aspect of the Revolutionary War history through pithy words and often dramatic pictures. It respects its audience as well as the historically significant friendship it portrays. Grades 2-5. --Carolyn Phelan

This book covers the relationship between Washington and Le Marquis de Lafayette. It mostly

focuses on Lafayette rather than Washington. It is not for the younger crowd. They use a lot of french expressions and the text is fairly long. I guess it is not what I expected.

It was a beautiful little book to get a child interested in our nation's rich history. My granddaughter loved it! It is simple enough for younger children but in a short book with great illustrations, there is a lot to get the little wheels turning.

Book was in excellent like new condition and my niece and nephew enjoyed reading it.

The story of the reserved George Washington's initially reluctant friendship with the young French officer whose heart "enlisted" in the American struggle for independence from Britain, is told in a spare, sprightly narrative interspersed with French words and phrases (C'est le moment! Magnifique!). The storyline focuses narrowly on the year 1777 beginning with the events leading up to the first meeting of the two and ending (somewhat abruptly) with Washington's visit to Lafayette at the house where he was recovering from a wound suffered at the Battle of Brandywine. But the wider historical picture is there as well: Sidebar "scrolls" contain quotes from Lafayette's documents and the backmatter, a treasure trove for teachers, includes the continuation of their relationship until the death of Washington, timelines, places to visit, a bibliography, a glossary of French phrases used in the text, and reproductions of two portraits currently hanging in the chamber of the U.S. House of Representatives. The color-on-pen-and-ink illustrations, many of them sweeping two-page spreads, capture both the human warmth and the dramatic historical sweep of the story. This book is lively enough to be simply read aloud and sturdy enough to be used as the basis for a U.S. history unit.

This is a wonderful book. The Marquis de Lafayette has been my 7 year old's hero for 3 years now. After a trip to Brandywine & Valley Forge, I'm a fan now too. I knew very little about Lafayette until my son had such an interest in the American Revolution that I had to learn more. I'm glad we did because the Marquis has a great story.

First, a disclaimer--I assisted the author, in a very small way, by analyzing and critiquing some of the illustrations for this book. That being said, I can still give my honest opinion, that this is a beautifully done book. The illustrations are very attractive and the book itself contains a wealth of information for young readers. There are not enough lively, engaging works on history for this age

group, so I am always thrilled to see another entry in the field.

I used to live in Washington D.C., and I'd pass Lafayette Square all the time. How did I never make the connection between the two? Thank you, Ms. Castrovilla, for writing a fun and engaging children's book that sheds light on two of the most important statesmen of the 18th century, both of whom had profound effects on how our nation was built.
