Dodie Osteen and her family pastor the congregation of Lakewood Church in Houston, Texas, which was founded by her husband, the late Pastor John Osteen. Dodie ministered alongside her husband throughout their 44-year marriage. Her son, Joel Osteen is not the senior pastor of Lakewood Church.

This is the only book I read almost everyday. I believed God healed me before I read it and this book just confirmed it. Dodie testimony really showed me how God will truly manifest himself through us if we obey his commandments and confess the word out loud. The same thing he did for Dodie he will do for you. God has so much mercy he wants us to be healed but you have to know that!. This is such a great book I took so many notes and confessed the same things that Dodie did. I felt better and better because I had lost so much weight and had no energy. I have so much confidence in the word of God and God was faithful to his word. You have to put in put the scriptures in your heart because your heart does not waver but your mind days. This is the best

book on healing I have read in years and I still say some the healing scriptures even after I got healed I thanked everyone for praying for me and I told them their prayers worked. I thank God every morning for healing me and I tell everyone about it just like Dodie Osteen said to do.

All the books I have bought are written by authors who are healers. But, this is the first book I purchased where the author herself is a testimonial of cancer survivor through the Word of God. Her testimony and encouragement are very much appreciated as I battle my cancer (demons). I can relate to her challenges as she faces the devil's lies with symptoms, feelings, and thoughts verses the promises of what God says in the Bible. The bottom line is that we must take accountability and responsibility to grow our faith every day, by praying in the Spirit, meditating on the Word of God day and night, praying for others, until we see miracles happening. God is faithful and good to those who believe and follow Him.

A WONDERFUL book the Lord blessed me with many years ago as my son faced a very dire cancer diagnosis. Praise God he was healed by the precious & mighty blood of Jesus!!! God used this great "word in due season" and powerful testimony from Joel Osteen's mom to richly bless my journey & strengthen my faith through that excruciatingly difficult season. Now I share this book with others facing the same road & highly recommend it if you or someone you love is facing the challenge of cancer.

I am a Cancer Survivor and every time, I hear some one has been diagnosed with cancer I share the small but powerful book. It is a great when you are dealing with cancer. It give you hope and inspiration for the journey called cancer.

I loved reading her testimony. She tells about the cancer and how she used her faith in God and His promises to receive her healing.

I have given this book to numerous friends and acquaintances over the years stricken with disease and cancer! This book is so encouraging and an inspiration to those struggling with every day hope at such a dark time in their lives! I always have one or two books on hand.....It is an easy, fast read...I give it 10 stars!

I purchased this book for my husband. We had several of these books given to us when we attended

Lakewood Church. We gave them all away to help other people and now we need it. We are so glad it was still in print, thank you.

I don't believe a book can heal someone, but I do believe it can fuel their courage, strength, and faith in God to believe for their healing. I bought this for a dear friend's mother who was battling stage 3 colon cancer. She did experience divine healing through her faith and with the help of her doctors.
