JINX Companion: Unlocking Magic's Greatest Magazine

Synopsis

It's usually spoken in hushed tones and with a sly smile: "It's in The JINX." It's exactly the sort of answer an experienced magician loves to give for the source of a just-performed killer trick. Not only are some of today's "new" tricks derived from items originally published in The JINX (1934-42), but its creator Theodore Annemann was the original magic blogger. Every month, in his spirited editorial column, Annemann praised -- and more often condemned -- magic and magicians. Working as a professional mind reader, and known to the magic community through his prolific early publications and contributions, Annemann became ensconced in a scene that was the center of American magic. His legacy is a landmark work. Its thousand pages stand like a massive, intricately forged armored door with no easily detectable keyhole among myriad distractions. It's easy to get overwhelmed. Uncovering the priceless subtleties contained within The JINX demands about a year's intensive study -- or the right lock picking set. Each chapter of the JINX Companion could be likened to a lock picking tool. Its introduction is a torsion wrench, establishing a "constant" while the reader shifts into a proper feel for the material. Its "Secrets and Mysteries" chapters are half-diamond picks, offering easy access to vital individual elements (such as long-forgotten methods ripe for revival -- gems of a practical nature). Its "Signs and Wonders" chapters are warded picks (a.k.a. skeleton keys), allowing for internal manipulations (compelling notional springboards such as mind-expanding aphorisms and mythological allusions -- gems of a cerebral nature).

Book Information

Paperback: 150 pages

Publisher: CreateSpace Independent Publishing Platform (February 22, 2011)

Language: English

ISBN-10: 1460952804

ISBN-13: 978-1460952801

Product Dimensions: 7 x 0.4 x 10 inches

Customer Reviews

"This is like taking a jungle safari with a guide who loves the terrain. It's a trip you shouldn't miss." --Jamy Ian Swiss for Genii
"This is a delightful book. It's clever, it's witty, it's thorough,

and it's beautiful." --Steve Bryant for "A Little Egypt Magic" Track it down. "You should find it fun and more than worth your time." --Steve Beam, "The Trapdoor" Lots of great surprises... Also enjoyable are the quirky asides, such as a discourse on the symbolism of the pocket handkerchief, a chronicling of Annemann's use of hyphens, a collection of Annemann anagrams, and forays into etymology and archetypal psychology. "Great fun!" --Allan Zola Kronzek, author of "The Sorcerer's Companion" "Yours is a worthy cause. I hope the Companion reaches a wide audience." --Karl Fulves, author of Self-Working Card Tricks

This book is obviously a work of love by the authors, who are magic geeks. Very helpful in understanding the time, place, and personalities involved in The Jinx. Especially helpful were the lists and summaries of doable, practical effects. You'll need a copy of the full Jinx run to appreciate this commentary; I bought it on a disc years ago, searchable by word, for \$20.

great book for anyone who loves the history of magic and unlocking the world of the JINX . A must have

Doesn't tell you where to get the original JINX they are referring to in the companion.
