## **Customer Reviews**

I am glad I purchased this book for the price. I am a big fan of Fleetwood Mac and have been for a long time. This is nostalgic for me. It is so fun to play some of the songs. Some songs I'm not really familiar with and some songs are meant to be played with a singer and accompaniment, however most of the songs can be played by playing the 2 staffs. Most tunes are easy to play. I bought a used book and it was well worth the price.

A good selection of fleetwood mac tunes. Standard tab and chord structure. It shipped in good time

I wil enjoy.

Right on the money for me...

Less than half of the songs on this book were of use to me. I wish the description was more clear so

you know exactly what you're buying before you get it.

This book has me believing that maybe Fleetwood Mac is not intended to be played by piano. This book is not worth it, so not worth the \$\$\$ or effort to play the wonderful songs that cannot be enjoyed due to the poor arrangements.

My favorite anthology for FM. It doesn't just include the radio hits. It includes some less well-known songs like Storms and Fireflies.

Great
