Laurie Sharp is a full time artist and has been needle felting for over 10 years. She raises her own sheep, shears and processes the wool for most of her projects. She has been featured on HGTV's *That's Clever*. From her web site www.woolpets.com, she sells needle felting kits and finished pieces as a business that has become overwhelmingly successful. Her work has been shown in a number of galleries in the Pacific Northwest. She lives in Suquamish, Washington with her husband and business partner, Kevin Sharp. Kevin is a professional photographer, and provides both beauty and how-to photography for Laurie's books.

This book is good for a beginner. Gives basic shapes for different type of bird. The instructions are well written but they don't give enough detail on the birds you need a book on birds to look at

pictures for more detail. If you are looking for realistic looking birds you will not find in this book. If you are just starting needle felting then it is a good starting place.

I am new to needle felting and found this book very helpful for providing ideas and step-by-step instructions. I have created several of the pieces illustrated in the book and am pleased with the results.

This book is adorable! It has a huge variety of different types of cute birds to needlefelt and includes great quality pictures.

I'm new to felting and am working my way through this book making the birds in it for Christmas tree ornaments to give to my goddaughter. It has been easy to follow and I think the resulting birds have turned out surprisingly well (for a newbie)--friends have been impressed!

A great book for a friend who loves to felt! Made a smash hit for a gift! She loves it.

I just made the woodpecker and it came out very cute. Only thing lacking is what the final size of each part should be since everyone has a different touch when felting. You find that one part is too small or big to fit the body. I had a very tough time making the chenille wrapped leg, so I wish there was a little more instruction on that and also what the final size of the feet should be. Very cute patterns.

Very much like this book! It has lots of easy-to-follow instructions and pictures. Made my first bird - a nuthatch? It was easier than I thought it would be and looked pretty much like the photos. Happy to recommend the book and the shipper!

I have never done needle-felting, but a friend showed me some small animals she had made and I decided I should try it. I haven't tried anything from the book yet, but the birds are exactly what I'm looking for. I work with a non-profit nature preserve, and I hope to make birds for us to sell. I asked my friend for her opinion of this book when it arrived, and she said it was an excellent how-to book. She said she would like to use it for some of the project designs.
