## **Customer Reviews**

"Finally, a guidebook aimed at the forgotten canoeist: families, bird watchers, solo adventurers, seniors, and average human beings who don't need to run rapids or mount an expedition to enjoy their paddling experience."--Canoe Magazine "I read Quiet Water cover to cover. It's packed with delicious nuggets of lore and wisdom. The writing is lively and informal. The Appalachian Mountain Club has outdone itself."--Worcester Magazine "For avid canoeists who prefer calm lakes and rivers, this is a great book, one that I wish was available for every state. The locations described are so peaceful that you tend to forget that you are in one of the most populated regions of the country."--Travel Books Review

John Hayes is the Director of Sustainability at Pacific University. He has paddled extensively in New

England and is co-author with Alex Wilson of three other books in AMC's Quiet Water series. Alex Wilson is an avid canoeist and naturalist and a widely published writer on energy, building technology, and environmental issues. He lives in Brattleboro, Vermont.

This new edition has added additional paddling areas, updated information on all areas creating a better paddling guide for local waters. It is a must for paddlers who want to get out and about without wasting time. It is more inclusive of kayaks, that I as a canoeist find inclusive to us as "paddlers" with mutual interest. It can surprise one with what is available to paddle locally and gets you out more, which is a must for me.

New to Kayaking. the to find new places to visit. I keep a log in the book next to the places we try.

This is a great book. We have kayaked for many years and refer to it frequently. I just bought this one for my son.
