Came promptly and in good condition. As for the contents of the book itself... I'm not a philosophy student, but I have taken a philosophy course before. I bought this book only for the Second Discourse and let me tell you, it is hard. I was amused because I only had sixty pages left to read, and I told my professor, "Oh, wow, I only have sixty pages to read!" She answered, "What do you mean, ONLY? You still have sixty pages left to read." Good point. It's definitely much more than sixty pages, considering Rousseau's lengthy footnotes and then the footnotes of Masters as well, and the language and the message behind the book are at times, hard to grasp. It's quite clever and a good read.

Excellent. thank you very much.

very nice book

Love it.

Was one of the 6 required texts for my political science 200 class. I actually liked it more than some of the other books we had to read. Not too difficult to read and was exactly what was required for my class.

Great condition thank you

It's another functioning book. Not much to say but it's affordable when you need many books for a theory class.

Exactly what was said was given. It arrived very quickly and in great condition. Actually better than what was said. I am very pleased
