Living up to the Boy Scout motto "Be prepared," this title covers everything from pimples to zombie invasions. This nod to yesteryear has plenty of practical pointers, with passages on how to put someone in the recovery position or carry someone with a foot or ankle injury, but most of the chapters have a basis in orienteering (How to Make a Compass Using the Sun), just-in-case scenarios (How to Escape from Quicksand), and the fantastical (zombies, anyone?). Campbell presents his instructions in clearly written and easy-to-read lists. Of course all this valuable information comes after a giant disclaimer, emphasizing common sense. Boys' and girls' interested in visiting far-off places and roughing it in the wild will enjoy this campy guide. On the other hand, the girly counterpart, The Girls'™ Book of Glamour: A Guide to Being a Goddess,

cannot be recommended. Where the Boysâ™ Book manages to balance the fun and frivolous with the useful, the Girlsâ™ Book boils down to beauty tips. The disparity is, frankly, alarming. Grades 4-7. --Courtney Jones

This has been a fantastic book for my 8 year old son. Being my middle child has struggled with reading in school- by motivation and by actually learning how to read, this has been "the ticket" to getting him to enjoy reading. He has brought it to school several times and his teacher allows him to share it with his classmates. One of his favorite silly ones is "how to survive a school dance." I bought it for him a few months ago and it's still his favorite book by far.

This is one of the generations old "The boys..." and "The girls..." survival books. Exactly why I bought it. These books are all awesome! This generation of the series is updated too. Everything from how to survive zompoc to how to build a dugout canoe is covered. Very fun for my boy to read.

My 12 yr old son, who hates to read, had to chose a book for his summer reading program, we found this book and he loved it! He laughed at some, learned from many (even took notes) and though he thought some were ridiculous he still found them interesting. I would recommended this book to anyone who has children, not just boys either, who are looking for something to read.

My 9 year old loves this book so much! He's totally into survival strategies, and says that he now has a basic nderstanding of how to land an airplane or escape from a car underwater- not that any of this is impending! In fact, the book does a great job of not scaring kids, but rather presenting them with interesting scenarios. It also mixes in some silly survival scenarios to help keep things light. Reluctant readers would really get a kick out of this, and it would be a good addition to any third-grade classroom Reading library.

It was an interesting book with really weird things about alien invasions. But good book :) Lol:)
Funny too Recomend this book

What fun! A great book for one person or a group. Read a page and pass it to the next kid in the back seat.I wish they hadn't put "Boys" in the title. There's nothing in the book that makes it inappropriate for girls.

This is a fun book. My 9 year old grandson told me he loves it. I do too! Smart, useful information along with common sense and humor. Well worth the price and appreciate that it's hardcover

This was a gift for a ten year old. His mother tells me he really enjoyed the book.
