And by "done it again", I mean "created another great history/mystery time travel tale". The fourth installment in The Missing series, Torn by Margaret Peterson Haddix, follows Jonah and Katherine as they travel back in time to the year 1611. The missing child that they must return to history in order to correct time? John Hudson, son of the famous (famously crazy, that is) Henry Hudson. The only problem: JB, Jonah and Katherine's time travel...supervisor, you could say, is unable to find the 21st century boy who is actually John Hudson to send him back to the past. A truly missing child! But, of course, there are more problems than just a missing (missing) historical figure. Jonah must pretend to be John, mask, wigs, clothing, and all, in hopes of setting history straight. However, after an hour or so aboard the Discovery, Henry Hudson's ship, all time is thrown out of balance. Tracers, ghost-like figures that show what is supposed to happen in history, go missing, Jonah and

Katherine lose all connections with JB, and an evil Mr. Prickett threatens the safety of the ship's crew, most significantly Jonah. Taking matters into their own hands, Jonah (still disguised as John Hudson) and Katherine (who is invisible thanks to the time traveling device, the Elucidator) try to make sense of the odd mishaps in time that keep occurring and attempt to save history and rescue their friends who are still stuck in the year 1600. Captivating and well-paced, Torn provides a set of loveable characters and rich historical settings to create an enjoyable read. Fans of the previous books in the Missing series will not be disappointed.

Son really liked the series.

If you are reading this series you should definitely continue reading them!! think they really keep you're attention and are very exciting, adventurous, Plus very suspenseful. Also, throughout the books there is a little romance. So, I would hilly recommend this book but start at the first, or else nothing will make sense!

I liked this book because I started liking the series in fifth grade now I am in sixth going to seventh and I'm still reading the series. I think that I could recommend this book to my so-called friend Josh. I chose this rating because I like the series and because the way this book was made you never would of expected half of the stuff that happened in there to happen, that's why I rated this book.

My daughter loves this series. She read this in three days. Haddix never disappoints.

My almost 14 year old son loved this book and series. He read it for optional summer reading.

I am a 12 year old girl who loves reading and when i started reading the missing series i fell in love. I would totally recommend this book to anybody who loves reading, or for any parent who wants their child to start reading. It is also a book that is for pretty much all ages.

Lots of drama with not much substance.
