The Shrine Of Jeffrey Dahmer

Synopsis

When Milwaukee police entered Jeffrey Dahmer's North 25th Street apartment in July 1991, they discovered that for some time this quiet, undemonstrative man had been living amidst the debris of an orgy of killing. A severed head lay in the refrigerator. A freezer contained two more heads and a human torso. Two skulls and a complete skeleton were found in a filing cabinet. A styrofoam box concealed two more skulls, and a large blue plastic drum was found to contain three further human torsos in various stages of decomposition. This is the story of the mass murderer, Jeffrey Dahmer. Brian Masters's subjects for biography have ranged from John Aspinall to E.F. Benson, from Marie Corelli to Georgina, Duchess of Devonshire. His study of mass murderer Dennis Nilsen, "Killing for Company", won the Gold Dagger Award for non-fiction in 1985.

Customer Reviews

This is one of the quintessential books on Dahmer, its companion piece being Lionel Dahmer's "A Father's Story". This book is well-researched and well-written to boot. Some readers may feel the author goes off-topic at times, often referencing Greek mythology, historical cannibalism and pioneers in the field of psychology. It borders on pretentious and overreaching, but it sticks to its goal of thoroughly exploring Dahmer's psyche. It also contains interesting details of Dahmer's personal life before his arrest, including how his psychological counselors felt about his therapeutic progress (hint: it's not optimistic). This book is a must for those interested in the forces that drove Dahmer to commit his crimes. A great and interesting read.

item was as described.

I am still reading. However there was sufficient details the author gave to make the book what I expected of him. I felt DAHMER was a multiple personality case and should have been put into a psych prison. The trial chapter remains for me to read.

Another great read. I love Brian masters approach to truly fascinating stories such as this.

I love books on serial killers.. And I have always been fascinated with them and their lifestyles. This book was by far so interesting, it goes into deatail about what he did to each victim! It does not only talk about how he did those acts, it also starts from his childhood, his parents, what they went through, and he even had a brother, I did not know that till reading the book! I was unable to put this book down! If you do not like gore, or details on how serial killers kill their victims then dont read, you wont like, BUT if your like me who is just intrigued with how, why, when and details, you will love it. Jeffrey was very interesting to read about. It was like I was there watching him. This is how specific this book gets! Which makes you think, How in the world could he have done all of that? Makes you think, hmm he did all that and then went about his business every day. So intereting! This book is a must read for all who are fascinated with serial killers! You will love it, but BEWARE! YOU HAVE BEEN WARNED, IT IS VERY DETAILED AND SPECIFIC! OVER ALL GREAT BOOK! 5 STARS! AUTHOR DID A GOOD JOB ON RESEARCHING JEFFERY!

One of the best books written about Jeffrey Dahmer.

I couldn't put this book down. Very well written and documented.

Im a Dahmer continuer and this book was exquisitely detailed and executed. It shows the man and the monster in GRAPHIC DETAIL.
