Customer Reviews

A very enjoyable read. What I enjoyed the most were the character profiles of major people, including Stefan Amaris, his wife, Jocasta Cameron, and many more. Another nice aspect was the Museum Technica, which delved into terraforming technology and the Department of Mega-Engineering (DOME). A must read for all

A great addition to any battletech fans collection. I have long been a fan of the Star League era, and this book adds an impressive amount of new material to the understanding and history of battletech. The book lays the foundation for the greatest campaign in battltech history...the Liberation of Terra (another must have book). So if your a fan I highly recommend this product.
