Customer Reviews

Ms Dark keeps on giving! The heroine, Zoe is intelligent, strong, and witty. She goes through hell with the insane Mage who attacks her and leaves her for dead. An innocent bystander spots Zoe and take her home to nurse her back to health. He soon realizes that he has bitten off more than he can choose. Fast pace and exciting with enough Romance to keep it spicy. Looking forward to the next book in the series.

This book takes the reader from extreme despair to comfort and great affection. The characters pull us into their imaginary world and we journey with them thru the highs and lows. I can not wait to watch the two most recent converts grow, and so I am off to buy the next book in this series.

This is a really great start to a promising series... Zoe becomes a Mage, and is made immortal, while having no clue about her new life. Luckily, she meets some seriously hot men. Men of honor, with old world dignity. Welcome to your new life, Learner!!! Time for book two now...I'm hooked!!!

This is not your run of the mill urban fantasy or paranormal romance. For one it is not dominated by shifters or vampires. In fact there is only one brief cameo appearance by a vampire. So if your definition of a great paranormal romance has to have fangs, this is not the series for you. Danika Dark has crafted a complex and exiting new fantasy world, while keeping the intrigue and suspense intense and the sexual tension wound tight as a drum with three , yes I said three sex strong and uniquely different male protagonist vying for the right to be her protector and lover. Danika Dark is a master at subtle plot twist that sneak up and blind side you before you know it. I can't wait to read the next book in this series.

Love this series! This book got me started in my journey into the breed world. The book wades through the emotional turmoil of someone who's life was changed for better or worse she hasn't decided. Lots of action and you fall in love with all the characters. Oh yeah and she meets lots of hunky males - who will she choose as her mate?

I didn't have high expectations for this book. I was surprised by the intelligent writing, the relatable and likable main character, the surprising directions of the story, the fact that it didn't follow the stereotypical paranormal romance script, and the fact that this was a delicious introduction into a fascinating new world. This book was enough to make me love this strong, fragile, fledgling survivor. I couldn't wait to discover the rest of her story. I thoroughly enjoyed and was fascinated by all of the supporting characters... I don't know what role they will all eventually have, and I am eagerly anticipating finding out. I have since bought the entire series; only the second series I've ever paid for on my Kindle. I am rereading the entire series!

The story just sucked me in and I couldn't put my Kindle down to do something like organize my thoughts. Our heroine, Zoe/Silver is so awesome. She was kick butt and strong. There were many times during the story that she was knocked down, but Silver continued to get back up each and every time. I found her to be a strong and resilient character, she doesn't always make the best choices, but that's okay I want to be her friend

regardless. There really isn't a cliffy in Sterling, but obviously there is more story to tell and if you're like me you won't be able to wait to start book two, *Twist*.

I would have given this 5 stars, unfortunately I found it a little slow at certain times. Although, I love the story and the characters! Zoë is a fantastic woman who I can relate to with her snarky attitude and the fight within her to be who she is!
