Keep Calm And Color -- Tranquil Trees Coloring Book (Adult Coloring)

Synopsis

A magical forest, populated by fantastical trees and wood nymphs, will help you color away stress. The trees bear intricately patterned leaves, some adorned with Celtic spirals, others forming a rich tapestry of flowers, fruit, and wildlife. This wealth of designs – approximately 60 – promises hours of inspired and relaxing coloring.

I was very surprised to see that this new book by Dover Publishing was printed on both sides of the page. Further, the pages are not perforated. Given the success of their Creative Haven and Sparks lines and their new Escapes line, I would have thought they would understand that printing on one side of the page with perforated pages is generally thought to be a good thing. For me, the publishing aspect of this line of books (Keep Calm & Color) is a huge step back. I purchased only one of three new books in this line and will probably not purchase the other two based on how they were printed. The designs are actually a reprint of a French book from 2015, *Ma Pause Nature A Colier* by Rustica Editions. That doesn't bother me as many international artists are now finding US publishing groups to make their books available in the US. For me, that's a great thing and I have a number of coloring books that

fall into that category. The designs are tree-related but with imaginative twists. Most of the designs are single page designs but there are a number which spread across two pages. Some of the two-page designs don't line up extremely well in my book. Be prepared ãfÂçÃ â ã ã œ there are a lot of leaves in this book. That makes sense as it is about trees but there are lot of them and I wanted to mention it specifically. This is what I found while coloring in this book and testing my coloring medium on the page: 62 pages of tree-inspired designs. Designs are printed on both sides of the page. 10 Designs spread across two pages. Paper is medium weight, white, slightly rough and non-perforated. Glue Bound. Alcohol-based markers bleed through this paper. Water-based makers bleed through in spots with this paper. Gel pens and India ink artist pens leave colorful shadows on the back of the page. Colored pencils work well with this paper. It has a decent amount of texture to it and both wax and oil based pencils lay good nice pigment, layer and blend well. Hard lead pencils can dent/score through to the back of the page.

I like the art in this book and really wish it was in a better designed book. First, my book came crunched up in the padded envelope and there seemed to be no way of getting it replaced so I got a refund and was afraid to re-order so here I am with a damaged book. As noted, the pictures are double-sided but mine are bent too and I don't know if I can copy them. I would like to use some water pencils on them. The double-page spreads go way into the center and I can't imagine how I would do those. I have wondered how the French version compares but not enough to spend that much money. And yes there are a lot of leaves but also some "tree people."

I am really enjoying this book. Delightful inspired unique trees. Someone has a great sense of imagination! Unfortunately printed back to back and no perforations, but I'm not letting it get me sidetracked from the impressive pictures I'm getting to color. Awesome!!!

This is a really cool book. I am a huge fan of trees and anything tree related. This is part of Dover's new series of Keep Calm and Color. It has really great artwork in it and is totally fun because it offers something different than what you might find in most adult coloring books these days...

Favorite!!!!!! Hands down my favorite coloring book. Pictures are beautiful, exactly what I was looking for.

The illustrations were great. I like to do embroidery using some of the pictures I find like coloring

with thread!

Beautiful book of trees to color. I love the designs of the trees, no two alike. Very interesting. A joy to color.

great coloring books
