## Customer Reviews

My interest in medieval alphabets has to do with embroidering, so a good reference alphabet is needed for monogramming.

This book is a wonderful compilation of Period alphabets from the 8th through the 14th centuries c.e. For medieval enthusiasts, calligraphers and artists interested in early manuscript styles, this is an invaluable reference. The alphabets are largely all decorative capitals, but some lower case sets are presented in the latter sections, and overall this is well worth hunting for if you can find it.
