New Brunswick 1:350,000 Travel Map (International Travel Maps)

Synopsis

A folded, indexed map of New Brunswick to plan your trip, to prepare your itinerary, and to travel independently in this province of Eastern Canada. The Canadian province of New Brunswick, called Acadia by its original French settlers, is perhaps best known for being the source of the famous epic poem *Evangeline*. It is also the home of the Cajun people. The British, unfairly regarding the Acadians (Cajuns), expelled thousands of them to French-controlled Louisiana in the mid-1750s. Some Acadians made the long trek back to the land they considered 'home', while many others re-built their lives in New Orleans. Today, the province is an industrious mix of French and English Canadians, sharing a land steeped in history. NB, for short, is the link between Central Canada and the Maritime Provinces. Historic Fredericton, Saint John, and St. Stephen retain many of the buildings built by loyalists fleeing the terror of the colonial revolution in what was to become the USA. The Bay of Fundy tidal bore and the amazing 'magnetic' hill that 'tows' cars uphill (go see for yourself) are two of the attractions of this interesting part of Canada. This map also completes our ITM mapping of each of the ten provinces and three territories of Canada. Legend includes places of interest, museums, national parks, lakes, picnic areas, camping, ski areas, golf courses, gas stations, airfields.

Customer Reviews

ITMB Publishing (International Travel Maps and Books) of Vancouver, Canada, is the leading international map publisher with more than 425 map titles in print. The company's titles include

many that are unique or the first of their kind, including an extensive series of travel and city maps covering Northamerica.

I was looking for something smaller and with more city detail. This was okay for, but too large to handle while driving a rental car. I had no GPS with me. Ended up getting free maps from various visitors centers and hotels.

not that great

Very easy to read.

Map is highly detailed, and is much better than AAA and even the official provincial maps. I like the fact that it uses both sides of the paper. The only negative is the colored background. White would be better.

excellent

Many interesting routes to consider and the map will come in very handy.
