As for the few who will be taking the S.A.T. French subject test, I highly recommend purchasing this book for reviewing grammar rules and vocabulary. The two tests given inside the book are also great help and relatively close to the one provided from the College Board (The Official Study Guide for ALL S.A.T. Subject Tests). If you know someone who will be taking another language subject test, I recommend The Princeton Review. Only for anyone taking a math or science subject test, utilize a different study aid besides The Princeton Review. The Princeton Review is mainly designed for language, literature, and history tests. Good luck on your test!

I bought this book to review french but it is different for me because i was born and raised french so i am fluent in the language but this book has great practice tests and the review seems thorough and accurate. This is a great help

It's a good book to review even if you are just learning French on your own and not in high school. The vocabulary and grammar sections are quite well organized.
