Best Sellers Rank: #189,601 in Books (See Top 100 in Books) #66 in Books > Reference > Almanacs & Yearbooks

Customer Reviews

Accurate as always. And it has everything you need for celestial navigation in one book.

There don't seem to be too many alternatives at a comparable price

The chart, 'Local Mean Time of Meridian Passage', of the planets (page 9) is worth a new hard copy every year.

Couldn't be happier

The almanac did meet my expectations having taught celestial navigation. Although the US version is smaller and easier to handle. The U.K. Version meets my needs. Thanks, JCJ

If you want this is, you need it. All the numbers are in there as always.

A great book of information on where you can be and how to find yourself.

Star charting will be easier
