Customer Reviews

For a self-titled "Queen of Crafting," this is, as my elders would have said, a p***poor excuse for a craft book. If it weren't more trouble than it's worth, I would return it. For the price, there should have at least been a color photo section like other low-budget craft books have --- this book is advertised for beginners, after all, who cannot be expected to be able to read a knitting pattern and figure out what it looks like finished. Failing that, the old-fashioned solution of black-and white photos with the patterns could have been used, and wasn't. Also, the finished sizes of the articles are often either missing or so vague as to be useless. Not only that, but the live links that are available in the Kindle version, though they say "for reference only" lead not to this author's website, but to many other crafters' websites, and I don't see a list of permissions given for their use, nor of photography attributions, nor even actual visual/print labeling of these other websites for the advertising boost, which leads me to questions of intellectual property rights. Does this author actually have permission to use these other crafters' work?

Perfect book I loved it and learned so much from it

Learned some new stitches!

365 Days of Knitting has many good projects for the beginning knitter and for those that have been knitting for years in the event you need something in a hurry,

Intersting

fun way to find patterns

Great!

I was always interested in knitting since my grandmother taught me as young girl. I hadn't picked it up since then and I was determined to do so. I also wanted to make a few gifts for my loved ones since Christmas was closing in on us. This book is a great resource. It helped me brush up on some knitting basics like reading patterns and needle conversions which gave me a bit more confidence

before I jumped into my first project. I got warmed up with really simple blanket and then I was on a roll. The book has a fantastic selection of projects to learn from. A must have for any beginning knitter or hobbyist looking for a great challenge.
