Grade Level: 4 - 7

Customer Reviews

So I bought another *Pirateology* book a long time ago at Barnes and Noble that was on sale for \$10 and my 6 year old son loved it. It was huge and had a lot of hands-on exercises like opening envelopes and cut-out treasure maps. I expected this book to be similar, but it was a lot smaller and the content seems to be for children a bit older. I bought it for my son's Christmas present so I haven't gotten his reaction to it yet. I was just a little disappointed that it was so much smaller and doesn't seem to have the hands-on stuff that my other *pirateology* book had. I think my son will still like it, though.

Love it. Very informational on a basic level.

Great source

these were purchased for a daughter who is a great fan of everything about piracy, and likes to think she was Anne Bonnet in a previous life! She was absolutely thrilled with both books. Everyone who saw them was really impressed with the artistry and the fabulous amount of information presented in such a provocative manner,

This book has some of the same pages as Captain William Lubber's Pirateology Handbook. If I would have known they were almost the same, I probably would have only ordered one or the other. They are nice books.

Wonderful book!

Book was a gift to a pirate loving friend who found it enjoyable.

:)
