## Customer Reviews

This is a wonderful book--and rates as Easy Piano--but not for the very young pianist of less than about three years of lessons. It has jazz like modulations. I like it, but it's going to be a challenge to teach to a student with only a year of lessons under his belt.

I'm a guitarist and below average musical notation reader. I was hoping this would be a quick easy way to play these melodies but it's a challenge. Still well presented and very clear but a challenge for the non pianist.

We love Vince

These pieces are not as easy as I expected. Definitely not for a beginner. My daughter is in level 4 and cannot really play these songs.

This was exactly what I wanted it to be. However, I was nervous, because when you click on the link to let you look at the inside of the book, it doesn't show you the actual inside of the book. It shows you the inside of a simplified version of the book. It is a harder version, which is the book we were hoping for.

Our children love it

Wonderful music.

What's not to like, if you're playing Christmas Time is Here on Christmas and you're with Charlie Brown? Great for beginners and still a challenge.
