Wong's Essentials Of Pediatric Nursing - E-Book

Synopsis

Known for its accuracy, evidence-based focus, and engaging writing style, Wong's Essentials of Pediatric Nursing, 10th Edition has been the #1 title in the pediatric nursing market since it first published in 1980! Thoroughly revised to equip you with the latest research and guidelines for treating children today, it encourages a whole-body approach by beginning with child development and health promotion to better understand the later chapters on specific health problems. A new chapter featuring all systems cancers provides comprehensive information in one place. Nursing Care Plans now incorporate additional case studies to personalize interventions and promote critical thinking.

Customer Reviews

I bought this for kindle because i needed it right away. The graphics are not the same as the physical book and some of the words are cut off. Obviously, I can't rely on this for class. I ended up just using the previous edition and im doing just fine. I wanted to return but couldn't find a link. Basically i just wasted my money.

Great packaging and great book

Rented book instead of buying for nursing school. Book is in excellent condition. Very happy with the product received. Will definitely rent my textbooks again.

It's very good

Item as described

good
