Astrology, Karma & Transformation: The Inner Dimensions Of The Birth Chart

Synopsis

This insightful and original book focuses on the understanding and use of astrology as a tool for spiritual and psychological growth. In contrast to traditional prediction-oriented astrology, this new approach to the most ancient of all sciences is based upon the law of karma and the urge toward self-transformation. Especially emphasizing the transformative and karmic significance of Saturn, Uranus, Neptune, and Pluto, this book places all astrological techniques in a growth-oriented perspective. It is especially pertinent for those whose interest in astrology is based on a recognition of its spiritual significance and its value for enhancing self-knowledge. Included are chapters on such topics as: karma & relationships; progressions; transits; astrology in the Edgar Cayce readings; the meaning of the Ascendant & its ruler; and a positive approach to Saturn. In addition, the chapters on Pluto and on the aspects are the most complete in-depth treatments of these subjects now available in print.

Stephen Arroyo (born October 6, 1946 in Kansas City, Missouri) is an American author and astrologer. Arroyo has written seven books on psychologically oriented astrology which outline his theory that the individual's experience of the Solar System's impacts on their personal energy field, both psychological and physical. His works recast astrological concepts in psychological terms, and reject what he perceives as the fatalism and negativity of old-fashioned astrology. His books have now been translated into 20 languages. Regarding his written works, the Library Journal stated:

"The simplicity and clarity of his treatment of complex ideas is remarkable; it makes accessible even to the beginner a wealth of understanding....giving meaningful psychological grounding to astrological interpretation."[citation needed] Arroyo has been guest speaker at events in the North America and Europe, and has taught astrology courses in the United States. He has been awarded the British Astrological Association Astrology Prize, the Fraternity of Canadian Astrologers' International Sun Award, and the United Astrology Congress's Regulus Award. He has an honors degree in literature from the University of California and a Masters Degree in Psychology. Previous occupations include marriage counseling, and the practice of a homeopathy and polarity therapy.

This book, like all of Arroyo's astrology books, is incredibly insightful and should be read by every astrologer (though it's probably best to tackle at the intermediate level rather than as a beginner). I don't share the author's take on every topic, but he is one of my favorite astrologers to read and I always benefit from his writing. He has made me a better astrologer in so many ways. My only real complaint is that Arroyo often skips a lot of information, saying the content has already been adequately covered by other authors, and including footnotes with their books and pamphlets. Since the book was first published in the 70's, a lot of those books/pamphlets are out of print and tough to find. This can leave some pretty big holes that are hard to fill more than 30 years later. In any case, this book (ALL of Arroyo's books) should be on every astrologer's shelf; whether your style is similar to his or completely different, you will definitely grow as an astrologer.

Stephen Arroyo never disappoints with his insightful interpretations of astrology aspects. This book is not for a rank novice, however, as without a clear understanding of how the different aspects/signs/positions can affect people, it probably won't make much sense. For us "older" amateur astrologists, it presents very good insights and interpretations. In my opinion, he is "spot on."

I am a huge fan of Evolutionary Astrology, but this book is very difficult to read. The print is very small, and his ideas are so very big and smushed into a very small space. This is definitely one of those books you would take on a professional course, and maybe that's why they edited it the way they did. I'm going to have to read it at least 3-4 times before I completely nail down his theories and ideas. I know it's one of the more major books in the field and one that professionals look to, but I'm an amateur and it was difficult to follow. I give it four stars b/c even though it's a challenging read - I

know I'm really going to learn a lot just from the first three chapters I got through.

I have studied astrology extensively over the years. It is difficult to find pieces of literature on the that challenge me anymore. But this has been an in depth read with a lot of emphasis on Karmic placements. If you are interested in taking your astrology knowledge to the higher levels and are bored with the basics, I recommend this book as your next read. Shipping was fast and timely. Conditions of product were as stated.

Stephen Arroyo has grasped the true meaning of the birth chart as a guide to our karma in this lifetime. Not a book for the rank beginner and not a cookbook approach to astrology. Arroyo draws from many sources, including C.G. Jung and Edgar Cayce, to draw out the nuggets of understanding. A fascinating book.

Personal Enlightenment thru the 3 very magical paths that will take you into the deepest parts of your past, present, future.

This book has star quality, deeply thoughtful insights which are presented in an engaging, easy-to-read way. It isn't cookie-cutter, so those who are looking to pop it open and find a specific paragraph on a planetary placement may not be able to breeze through and find a quick-fix answer. Rather, this is something you want to savor, pondering over and over again the valuable tidbits and insight into the psyche. I highly recommend this book. It suits the needs of astrologers and students alike!

This book goes in depth into the world of Astrology. The title explains it all. It seems to focus a tad bit more on the Astrology and Birth Charts, Planetary Symbols, etc. It is very well written. I would recommend this for someone who has a deep interest in the topics discussed in the title. I borrowed it to a friend who isn't very focused on these types of books and she couldn't keep interested in it. It is a very great book for an awesome price, fast shipping, neat packaging, and I am very happy with it.
