Customer Reviews

Highly recommended book right here, I thoroughly enjoyed my entire read. Using astrology, this book really helps you understand yourself on a deeper level and what a Twin Flame actually is (it's different than a soul mate). It put in perspective my current relationship, where little things I didn't notice indicate that we are Twin Flames. Eye opening.

I went into reading this book with a strong interest in Twin Flames, and it definitely delivered the information I was looking for. It really covers everything from the difference between Twin Flames and Soulmates to the origins of the subject. I highly recommend this for anyone looking to discover more about Twin Flames in general, as I'm sure you'll learn something new.

This is a really interesting and informative book. This book helped me understand what a twin flame really is, and the differences with being soul mates. I would highly recommend this book to anyone

who is looking to become more informed in the subject.

Good stuff, before reading this book I had no clue how to tell the difference between a twin flame and a soul mate. It gave me a bigger understanding on a twin flame and taught me stuff I have never knew. The book reeled me in within the first chapter and I didn't want to stop reading very good book definitely recommend it.

I'll admit that I did not know much about twin flames or soulmates before reading this book. I've been single for a while now and reading this was really uplifting as well as helpful. The information presented is not only captivating but easy to digest. Highly suggested to everyone out there, even those who have found their SO already!

I can't even describe how much this book helped me to get much knowlegde about Flames and Soulmates. It is really interesting book. Worth buying it. I'd recommend it to everyone in this whole world. It is a perfect price for everyone and well worth it.

This is a really good read! I'm the type of guy who's into books so I just want to leave a review for this book since it's a good one. I really felt a connection with this book with how my relationship goes right now. We've been childhood sweethearts and everybody knew that we will eventually have each other in the future, not me though. I tried every effort to counter it since I thought I deserve a much better girl. I was really full of myself back then. But things happened and as the time passed it seems that things just fell into their right places and we've been happily together ever since. It's been 7 years and what a wonderful ride it has been! I still think of it as an act of magic, or fate perhaps. I recommend this book for those who had lost hope in searching for the one!

This was a really interesting and straightforward book. It helped to put the differences between twin flames and soul mates into perspective for me. I would recommend this book to anyone who is looking to expand their understanding of their relationships.
