I was impressed when I first opened this up. Instead of a simple cardboard screen it was heavy duty, like a hard backed book. 4 pages of excellent tables with page reference numbers for easy

lookup.

Been a gamer for 35+ years, and I was impressed! The GM screen isn't thin and flimsy like most others, it's as thick as a hard bound book cover. It has a protective sleeve for storage, to prevent damage. Well constructed and sturdy!

Everything you need in one place. This is a great supplement, even if you have the PDF version of Shadowrun. You'll find yourself referring to this more than you do the manual.

was Jonny on the spot with the deliver of a still in original packaging of the screen. Want your catalyst products use not Catalyst labs. I am very impressed with the quality of the screen, not you flimsy stock paper / poster board screen. They used hardback book cover material for board, and a very well put together panoramic for the players to see and a the GM has several frequently used charts at their side.

simply a must for GMs, lots of handy tables, and privacy for the GMs plans for the player. I know a lot of folks that have gone over to laptops for this, but this is still the better way to go.

Everything I expected! Great art on their side and lots of handy tables for reference on my side.

Excelent quality and having most if the charts needed to run a session is always nice. There are just too many charts to fit on a GM screen. They tried to put the most important and used charts on the screen and I'd say they hit 90% of all I use often. Get buy.

great
