Customer Reviews

The Top 10 formula is intriguing. (Chattanooga Times Free Press)

Top 10 is an excellent travel guide, we visit several places and we could not do it without it the guide, it gives us addresses rates and helpful information for each attraction.

useful!

Eyewitness books are G R E A T

Looks like it will help a lot with this year's vacation.

Excellent resource for our guests.

This is a great book and we used it a lot on our last trip to Orlando! I will save you time and money and has some great "secret" tips!

like the copy I got at Barnes & Noble more

Overall I think this is a great guide. I've used a couple of the DK Top 10 travel books and haven't been disappointed yet. I like that "only" one-third of the book is about the theme parks. There is so much to do in and around Orlando that I find it a shame when some books only focus on theme parks. Likewise, if all you WILL be visiting are the theme parks, you might consider a book that focuses more on that. But this book also features the many museums, art galleries, seasonal festivals, parks, and nature spots that the area has to offer. Also mentions some great day trips. I'm actually a resident of Orlando and enjoyed the detailed lists of clubs and restaurants, as well as interesting neighborhoods I hadn't been to before. The reason I took a star off is because it's a little dated already. Even though it's from 2010, some things have already changed. As another reviewer mentioned, rides have already changed at some parks. Also, with the economic crisis things around town have changed as well: unfortunately we no longer have an opera, and smaller attractions like the ghost tours have closed as well. It's not the book's fault, since things change here frequently, but just be sure to double-check the things you have your heart set on online. As a side note, the only general gripe I have about DK books is that they often use outdated photos. For example, some shots of downtown have buildings missing that have been there for two or three years. But that's a minor detail. All in all, don't be fooled by the small size - this book is packed with information.
