Robert Ludlum's (TM) The Bourne Initiative

Synopsis

Jason Bourne returns in this stunning new thriller from Eric Van Lustbader, continuing Robert Ludlum's classic series. General Boris Karpov, head of the feared Russian FSB, is dead. But Karpov has reached out from the grave with an unstoppable cyber operation he conceived before his murder, aimed at the heart of the United States - a way to steal the president's nuclear launch codes. Who has taken over the operation? Karpov trusted only one man: Jason Bourne. But can Bourne be working against his own country? The US government is convinced of his treason and is doing everything in its power to kill him. Flushed from cover and gravely wounded, Bourne's only hope is to join forces with his bitterest enemy: a powerful Somali terrorist named Keyre and his protégé, the Angelmaker. If he hopes to survive, Bourne has no choice but unravel the mystery of Karpov's last legacy - a weaponized code that may bring about the unthinkable: a violent end to America.

#548 in Books > Audible Audiobooks > Mysteries & Thrillers > Suspense #588 in Books > Mystery, Thriller & Suspense > Mystery > International Mystery & Crime

Customer Reviews

A mere shadow of a real Robert Ludlum book. Superficial writing, little character development, and so boring and off-point in some stretches that I seriously considered stopping. While I accept that Bourne plots historically have flirted with the edges of reality, the Bourne Initiative does not even attempt to be plausible. All in all, don't waste your time.

Very interesting book, as all of Bourne's novels. But in this one the book spent a very high amount

of pages on people other than Bourne. And most importantly, he needed too much help. I don't like it when he is saved by someone else

The book is another great Bourne novel as one has come to expect from this author. The ending was a bit abrupt but will most likely set up the next book very well.

If you Jason Bourne you will love this book too, again Jason saves the world again can't wait for the new book

I think I've read my last "Jason Bourne " novel. All of the life seems to have drained from the character.

Eric Van Lustbader has done it again! Jason Bourne is one of the greatest antihero of our time. Riveting, edge of your seat reading that allows the reader to escape to places such as Somalia and Russia in search of the Bourne Initiative. I sure hope Van Lustbader has a story or two for Mr. Bourne left in him.

Still paced for intrigue and heroics.

Too many characters but grrat book
