Alfred Beginning Drumset Method Book With CD

Synopsis

Beginning Drumset Method Book with CD. "This innovative method is a practical approach to playing the drum set. Students start their first lesson by playing an actual beat. The book is divided into two sections: Rock and Jazz. In each section, students learn the use of the hi-hat, ride cymbal, snare drum, and bass drum in their respective styles. A play-along CD is included for corresponding drum charts."

Beginning Drumset Method Book with CD. "This innovative method is a practical approach to playing the drum set. Students start their first lesson by playing an actual beat. The book is divided into two sections: Rock and Jazz. In each section, students learn the use of the hi-hat, ride cymbal, snare drum, and bass drum in their respective styles. A play-along CD is included for corresponding drum charts."

I teach drum lessons and use this book for students ranging in age from 6-adult. It is very well written and includes the most popular and easy to learn rhythms. They love to play along with the songs on the CD and after they learn the first page, they can even start playing along with many popular rock-n-roll songs. Very motivating. The rhythms and fills are classics and will not go out of style anytime soon. This is a well-organized book.

I bought this for my teen son who already reads music. It turned out to be a very good book for an older beginning drummer. It jumps right in to the drum set itself, without wasting many pages of "this is a quarter note" type of instruction. My only complaint is, there is not separate staff lines for each

mounted tom. But perhaps it's the drummer's personal preference which one he plays. My son hasn't used the CD much yet, but the full ensemble doesn't begin right away---only the drums.

Very good book with instructions from setting up your drum set to hammering out drum beats. CD is very instructional for the beginner to become a good drummer

Goes into setting up drums, holding sticks, and then learning to play!

Amazing. It really helped expand my sight reading capabilities. I definitely recommend this book for people who want to learn to read.

Good book for a beginner.

I Learned to play drums using this book 13 years ago, And I can't believe that it's still being sold! That's just a testament to how helpful and effective this book really is. the songs on the audio CD are a lot of fun to play; Blues For Time was the first song I ever played on a drum set, and I still remember it like I was playing it yesterday (sad, I know). The music is clear and easy to read, and the book moves very slowly, but you'll have a very large rep of beats, and an increased knowledge of basic drumming before you know it. This book was a necessary step in becoming a professional drummer, and If i can do it, anybody can, as long as they start with this book/CD. I highly recommend it!
