Melody Carlson has written more than 200 books for teens, women, and children. Before publishing, Melody traveled around the world, volunteered in teen ministry, taught preschool, raised two sons, and worked briefly in interior design and later in international adoption. "I think real-life experiences inspire the best fiction," she says. Her wide variety of books seems to prove this theory.

I love this "LITTLE" His First Bible. It is much smaller than picture looks however perfect for little hands. It is 96 pages for ages 2-5 and measures 4.4 x 0.5 x 6.3 inches I bought both the His and Hers for our twin grand babies that are due soon as a shower gift so they "Begin to hide God's word in his and Her heart "It includes 19 Old Testament and 22 New Testament easy to read pages with colorful illustrations. Perfect to get little ones on right path with little held bible teaching the way.

I purchased one of these for my grandson and was tickled to death with it when it arrived. I liked it so well, I immediately ordered another one for my other grandson (his little brother). Most baby's bibles are simply small regular bibles with tiny print, some just have the New Testament. Those are nice little keepsakes, but I don't consider them practical for actual use. Babies have notoriously short attention spans. This thin little bible is perfect for reading to a little one and introducing them to the Word without overwhelming them. You could call it a summary of bible highlights. Starting with God creating light and moving through to the NT, each page has a short one or two line rhyme that describes an important point in the bible with a charming illustration on the facing page.

Bought for my son (15 months) since he's starting out with words it'll be good addition. He listens attentively when he's read. The inside has a nice simple look and the size of the book is just right.

nice book for baby shower gift

Was a gift, but I loved it!

This is small but colorful illustrations and poems make it perfect for a child. Pages are paper, not cardboard for a baby. Though a baby would enjoy the sound of reading.

I bought this for my son thinking its somewhat close to the real bible. Just a little book with rhymes.

Smaller than what I thought I Would be, but it was worth buying
