Social Media Marketing When You Have NO CLUE!: Youtube, Instagram, Pinterest, Twitter, Facebook (Beginner Internet Marketing Series 4)

Synopsis

SOCIAL MEDIA MARKETING + FREE BONUS REPORT STEP-BY-STEP: Easy-to-Follow

Strategies for Building a Large Following on Social Media Crush it

on: Youtube Instagram Pinterest Twitter Facebook Learn how to monetize your Social Networks and how to market your brand most effectively. This book will help you start growing more followers TODAY and help you automate the process, so you don't have to spend hours and hours every day. Each chapter is structured as follows:- Overview and Current Trends for each Platform- Your Profile- Your Posts- Strategies for Growing your Following- Tools & Further Training- Daily Routine Massive Monetization Chapter for Youtube Youtube is one of the most powerful platforms to quickly grow an additional income stream - and possibly turn Youtube into your career. We'll discuss in detail ALL the many income streams that Youtube offers and how to effectively apply them right from the start. Film making and camera work are not included, as this is a marketing book - not a technical how-to. However, plenty of resources are mentioned that can help you with those areas as well. What is unique about each Social Media Platform? We'll cover what is unique about each social media platform and how best to use them, so you don't post the same everywhere. You'll be able to decide which social networks are best suited for your particular business and brand and how to use all the unique features available. Tips for creating great graphical posts and how to research viral topics are discussed as well as a number of great training resources (both free and paid) to take your social media marketing to the next level. Interactive with many Videos and Outside Resources Social Media Marketing has become one of the most effective strategies to build your brand online, spread your message and attract new clients and customers. This book will help you take your social media game to the next level. **FREE Bonus Report:** "Words that Sell" • The Psychology behind the 10 most Influential Words in the English Language and how you can use them to Grow Your Following and turn Readers into Buyers Would You Like To Know More? Customer Reviews

I love this book! I read it just a few days ago and was able to organize my YouTube channel. My 7 minute intro video is very straight to the point with my watchers. They know exactly what I have to offer and how it can help them. I no longer have a blog because I'm too ADHD to sit and write out posts. :-P I do everything by video so I can speak my mind and people see my emotions. This book will also help you set up your very own blog. I'm not sure what I have, is it a vlog? Perhaps. Chapter one is the meat, and potatoes of your blogging journey. There are some very provocative questions for you to answer. I suggest you write down your answers for clarity. As I said before, I took the questions and answered them right on my intro video. Get this book and read chapter 1 immediately. If you get stuck on a question, don't skip it. Simply put it to the side until you think a little more, but make sure you answer that question. Best wishes to you all!

"Social Media Marketing When You Have No Clue" covers YouTube, Facebook, Twitter, Instagram and P interest. The book covers the basics of how to get started on each platform from creating profiles to how to use each platform efficiently. I am not a total beginner but I did not know a lot of short cuts before reading this book. I found information on scheduling and management tools very useful.

If you want an intro to social media marketing, this book is for you. She give great general and detailed information on how to use social media marketing on all the major platforms. The kindle

version is chock full of lists, none of which I've clicked yet. I might have to read this book twice. Sassy girl knows she stuff.

This book was great for someone like me who wants to learn more about social media and who has no previous experience with marketing. The book gave me lots of tips and suggestions and was very clear and easy to read. Very useful!

The chapters are broken down shortest to longest. The author covers each social media platform with an overview and giving tips, advice, and software to use to start marketing on social media. For a millennial most of the stuff is known or if you've read any type of marketing material regarding social media. There are some helpful tips and software that I found to be useful and that I highlighted to look at later. Overall the book was good and short. Thank you!

Just like the other books by this author its format is fantastic and easy to understand. A well written introduction into the world of how to market on Social Media.

I gave this book five stars because it is a clear reference guide to the top social media sites. The author uses an easy to understand format outlining the purpose of each site and tips for creating intentional profiles for promoting businesses and services. Very helpful!

An excellent explanation and overview of major social media marketing options. A very good introduction to the subject.
