Mary Baker Eddy fue una pionera en el campo de la medicina mente/cuerpo, superando desafos fsicos y emocionales similares a los que enfrenta la gente hoy en da. Ella descubri que existe una conexin demostrable entre la espiritualidad y la salud, y expuso su sistema de curacin mediante la oracin, en Ciencia y Salud. Hace poco, fue honrada en el U.S. National Women's Hall of Fame (Saln de la Fama de Mujeres de los EE.UU.). Entre sus logros se encuentra el haber fundado el diario internacional The Christian Science Monitor, ganador del premio Pulitzer. Tambin di conferencias, ense, escribi varios libros y san a miles de personas.

I have read this book in English, so know the content, which is profound, life changing, and healing. The author, Mary Baker Eddy, writes about God in a way that made me think, even when I was an atheist, "I wish there were a God, if that God were exactly as described in this book."The Spanish edition's format is now an additional thing that impresses me because somehow the translators and editors match the English facing pages line for line, even though Spanish often uses more words than does English in a given sentence.(The reason this line-matching is important is that this particular book contains numbers every few lines to make referencing easier.)

It's a great book. Everything I expected.

I will read it

A book that everyone should read!

Quick shipment. As advertised.

Great

This is truly life changing. I especially like that it is bilingual and has managed somehow to keep the same numeration as the English version.

Excelent! it is a great analysis of our current concept of life, we need to change accordingly, you must read it.
