Billy Steers is an author, illustrator, and pilot. In addition to the Tractor Mac series, he has worked on forty other children's books. Mr. Steers had horses and sheep on the farm where he grew up in Connecticut. Married with three sons, he still lives in Connecticut.

Perfect for my nephew. Exactly what I wanted and in great condition.

My son has several Tractor Mac books, which are great for his age (3-5). This book is a cute and very simple board book with flaps to find the missing chicks on each page. It would be great for a 1-2 year old. This book as well as all of the books in the series are beautifully illustrated.

Adorable

Very cute tractor book. My son is really into tractors and he loves this book. He kept making us read it to him over and over. He just turned 2 when we got this book and he had it memorized. This is our first Tractor Mac book and I am going to have to buy some more.

My grandson loves all his Tractor Mac books. This book keeps him busy looking for the missing chicks. Beautiful illustrations that holds his interest.

My little grandson loves the tractor books. He loves equipment and these books completes that for him. Should your child love tractors, big equipment than this is a great book for them to learn.

Adorable storybook and boys who love tractors/lawn mowers will love the illustrations. The tabs add interest ... wish there was more!!

My grandson LOVES this book, he has a GREAT time lifting the tabs to find the baby chicks
