Biology Laboratory Manual (Majors Biology)

Synopsis

The Biology Laboratory Manual by Vodopich and Moore was designed for an introductory biology course with a broad survey of basic laboratory techniques. The experiments and procedures are simple safe easy to perform and especially appropriate for large classes. Few experiments require more than one class meeting to complete the procedure. Each exercise includes many photographs traditional topics and experiments that help students learn about life. Procedures within each exercise are numerous and discrete so that an exercise can be tailored to the needs of the students the style of the instructor and the facilities available.
