Customer Reviews

'I think the addition of John McCormick to the team is an excellent idea. I know his scholarship better than his textbooks, but he is a clear writer with huge textbook experience this is a good book that is going to get better' Craig Parsons, University of Oregon, USA 'This is one of, if not the, most comprehensive introductory comparative textbook(s) currently on the market, and this new edition retains all of the strongest features of previous editions.' - James Allan, Wittenberg University, USA 'Once again (and now with John McCormick on board) this classic introductory comparative politics text manages to stay relevant, accessible and contemporary. It remains the key text for students new to comparative politics, mixing theoretical clarity with expert country case studies throughout.' Mark Bennister, Canterbury Christchurch University, UK 'The reordering of the chapters fits better with how I teach my comparative politics class I will continue to use this text when I teach comp pols.' Jennifer Curtin, University of Auckland, NZ 'The book remains, as it has for many years, one of the leading texts for first year undergraduates trying to understand the main features of

comparative politics It remains a classic text' Stephen Thornton, Cardiff University, UK'I am delighted to see that John McCormick is joining Hague and Harrop. I am very familiar with his writing, having used his EU textbooks in my teaching for many years. He manages to get the most important points across, even on challenging subjects, like the EU, in a comprehensive, yet clear way.' Thomas Lundberg, University of Glasgow, UK'Overall, as should by now be abundantly clear, I am very impressed with the proposed changes; they would make an already excellent introductory text an outstanding one, and Prof. McCormick has clearly put a great deal of thought into his suggestions. I feel that, as an assessor, I should be more critical; but I really did find myself nodding in agreement with almost all the proposed changes. I would certainly use this book for teaching, and I know many others would too.' Leslie Holmes, University of Melbourne, Australia""This is one of, if not the, most comprehensive introductory comparative textbook(s) currently on the market, and this new edition retains all of the strongest features of previous editions.' - James Allan, Wittenberg University, USA 'This latest edition lives up to the high expectations created by its predecessors and remains top of the list for comprehensiveness and accessibility. The discussion of theories, concepts and typologies is well supported by cases and examples of recent political developments.'

- Rudy Andeweg, Leiden University, the Netherlands 'Once again (and now with John McCormick on board) this classic introductory comparative politics text manages to stay relevant, accessible and contemporary. It remains the key text for students new to comparative politics, mixing theoretical clarity with expert country case studies throughout.'
