Text: English, Spanish

I have studied the Spanish language off and on for years. I've tried Rosetta Stone and the Pimsleur Method. I LOVE this method because you can learn to pronounce the words with the correct accent without the computer. The phonetic pronunciation is included with each word and phrase. I do use the computer periodically so that I can check my pronunciation. But, that is not necessary. I'm just a bit of a perfectionist when it comes to learning the Spanish language. I practice with a friend everyday. We learn the words and the questions. Then we ask each other the questions in

Spanish...prompting us to remember the names of objects and phrases. On Saturdays, we write down the questions and answers, then quiz each other on that week's material. Then on Sundays, we begin the next chapter. It's really a lot of fun. There are 38 lecciones that have A LOT of Spanish for you to learn. I don't know if I'll be a fluent Castilian Spanish speaker when I reach the end of Leccion 38. But, I do know that I will be speaking A WHOLE LOT of Castilian Spanish. Most of you may know that Castilian Spanish is the Spanish spoken in Spain. That is my preferred dialect. I am VERY happy with my purchase.

Is it out of date? Is it teaching me to talk like a Spaniard rather than like a Mexican? Yes and yes, but it still helps to learn basics. Natural enough of a method. All lessons are in context. Bare-bones grammar and vocab for cheap.

Apparently the printer of this book needs to be a little more generous with the ink. Lot of the text is so faded,... I mean, come on, this is English people trying to learn a new language, so, missing or faded letters is not cool.

I have used Berlitz for decades. He never fails.

Have just completed this book; it is a very good system for learning and speaking without hesitation, with minimal "grammar.". Paperback PRINT QUALITY was poor and smudgy (not good when studying language), but Penguin provided me with a new copy, which was quite clear.

The perfect system for self learning. Only complaint is that the dialogue could be updated from the original 1930s topics; maybe mention the word "Computer".

i love all these in the series :)

This is a really great book. My son is using it as part of homeschool curriculum. It is easy to follow and no overwhelming
