Age Range: 4 - 8 years

Grade Level: Kindergarten - 2

Customer Reviews

Pros: Bright colorful pics
Cons: terrible awful pronunciation examples
My daughter is 5. I am fluent in Vietnamese. I thought it would be easier to have a book with pics to teach her the language. Well, she gets confused with the pronunciation examples from the book when she is studying independently (compared to what she is taught verbally). They should have used standard pronunciation examples (i.e., Oxford).

This book is great. I would have liked to see more cultural items in it. The first page about family, though I understand the importance of diversity, it would be easier for the child to comprehend if the picture were of an Asian family, something the child could relate to.

I am learning Vietnamese, and this book has proven to be very helpful to me as I learn the basics of

the language. With its colorfully pleasing pages and the large print, I have no difficulty seeing and differentiating the various accents and marks that change the sound, and pitch of the words as I have with the smaller printed lessons that I also use.

My 14 month daughter LOVES this book. We read it several times a day and she sits through it and is fully engaged. She's learning Vietnamese and English so it's just a great book. Illustrations are clever too.

Haven't used it yet.. but from what I've read it looks awesome..

This is not meant for children. This is more of a middle school or higher first book. Also, some words are wrong- like "puppet" is translated as elephant in Vietnamese.

good book for Vietnamese beginners

I am a parent of biracial kids. I do not speak Vietnamese, but wanted to find a way to introduce basic words to my children. I have exposure to the language and needed a book that would help me with pronunciation, understand the various accents, and focus on proper titles for family, elderly. This book does all of that and is very user friendly. This book allows you to successfully self teach the language and provides great illustrations to help younger learners.
