I almost exclusively use Eyewitness Guides when I purchase travel books. I love maps!!! They not only include street maps, but frequently include block-by-block guides for particularly dense neighborhoods, which also reference the primary map.

Very good guide. We always have good luck with this series of travel guides; this one as good as any others we had (DK Eyewitness)...we liked the 49 mile tour of the San Francisco area, that was

shown in it. (Like some, my only concern was that alot of space at the back, was taken up by lists of restaurants and lodging...and those were far from inclusive;)...but overall, the best of guides that I first checked out in a local chain store; this price was less so I ordered it from here.

This is a great guide with history, maps, and just generally excellent information. It really helped us get the most out of our trip to wonderful San Francisco.

We read this before we went to SF. My wife and I marked what we wanted to see, where we wanted to eat and just places we wanted to avoid. Great time saver and worth hours and hours of saved time.

Love DK Eyewitness travel books, this one is great, slim on Northern California though as others have mentioned.

Was a great tool for the planning process a couple of months before our trip. Also was great to have with us while there. I love these and have started a little collection now.

I love the Eyewitness Travel Guides! They break down cities by the block. I live in the SF Bay Area and I got this book because I knew I would learn new things and fun places to take friends from out of town. Friends can see Alcatraz and the GG Bridge on their own, but finding those unique places we sometimes forget about is where the Eyewitness Guide is fantastic. I've used these guides for New York, Paris, Chicago, and Washington D.C. I've never been disappointed and the book for San Francisco is just as great!

As always, the DK Eyewitness Travel series is my "go-to": Love the practical travel tips, locations, great organization of material and LOVE the photos.
