Sunvault: Stories Of Solarpunk And Eco-Speculation

Synopsis

"Readers who've had their fill of dystopian fiction will want to explore these more positive futures." Publishers Weekly
Sunvault: Stories of Solarpunk and Eco-Speculation is the first anthology to broadly collect solarpunk short fiction, artwork, and poetry. A new genre for the 21st Century, solarpunk is a revolution against despair. Focusing on solutions to environmental disasters, solarpunk envisions a future of green, sustainable energy used by societies that value inclusiveness, cooperation, and personal freedom. Edited by Phoebe Wagner and Brontë Christopher Wieland, Sunvault focuses on the stories of those inhabiting the crucial moments when great change can be made by people with the right tools; stories of people living during tipping points, and the spaces before and after them; and stories of those who fight to effect change and seek solutions to ecological disruption. Contributors include Elgin Award nominee Kristine Ong Muslim, New York Times bestselling author Daniel José Older, James Tiptree, Jr. Award winner Nisi Shawl, World Fantasy Award winner Lavie Tidhar, and Lambda Literary Awards finalist A.C. Wise, as well as Jess Barber, Santiago Belluco, Lisa M. Bradley, Chloe N. Clark, Brandon Crilly, Yilun Fan and translator S. Qiouyi Lu, Jaymee Goh, José M. Customer Reviews

I got a kickstarter copy of the book before it's release and read through it in a couple of days! Everything from the art to the stories are absolutely wonderful. Some of my favorites include "Strandbeest Dreaming" and "The Death of Pax" although I absolutely adored the one that takes place on an astroid about to hit Earth, and the one with the gay science dads. Oh, and the poem about the Helsinki sun harvest was amazing too! BrÃ¶nte and Phoebe set out to make a landmark Solarpunk collection, and I think they've done a brilliant job accomplishing that. This is exactly the kind of hopeful future (not an easy future, not a happy one, but a HOPEFUL one) that I want to see played out in our own world. Cannot recommend this book enough.
