Customer Reviews

McGraw-Hill authors represent the leading experts in their fields and are dedicated to improving the lives, careers, and interests of readers worldwide

This book is really confusingly organized. It has sample tests, for example, but no tables to convert the raw scores to the scores given for SSAT so that you'd have some idea of how the practice test had gone. It's too much trying to help with both tests, and we should have gotten a book just for one of them I suppose.

Very helpful

Good for my granddaughter
