It was good, had alot of marking inside but expected it. There was one page that was partially torn that was not made known to me before purchasing it, it was none the less satisfactory

Interesting, well written book containing numerous, up to date examples of contract law. Be aware that your individual state may have additional rules regarding contract law in addition to the ones cited in the textbook, so additional research may be warranted. Most of the other people in the class seemed to like the book, too. As soon as the class was over, I posted it for sale here and it sold within a week.

The author of this book is awesome. I assumed that I would be reading yet another boring and confusing legal book for my Contract Law class. Not so, this guy is clear and concise, and provides a plethora of examples for what he is writing about. If this author wrote all my legal books I'd be loving my legal studies sooooo much more!

This book is excellent with examples and an easy read the book was in excellent condition

Great book added to my collection. Came in a great timely manner.

Torn pages. Book just a mess. Should not have been sold.

Some of the textbooks I have purchased for my Paralegal course are very wordy. Not this one. I love the brief but detailed explanation of laws then examples. Love this book!

Well written and easy to follow. Recommend
