# Math For Minecrafters: Adventures In Addition & Subtraction

## Synopsis

With Math for Minecrafters: Adventures in Addition & Subtraction, learning time feels more like game time! This kid-friendly workbook features well-loved video game characters and concepts to reinforce the development of first and second grade math skills laid out in the national Common Core State Standards. Colorfully-illustrated puzzles and high-interest word problems use beloved items from the Overworld like diamond swords, suits of armor, zombies, and magical potions to encourage math practice in even the most reluctant of students. The curriculum-based content covered here includes lessons in: Geometric shapes Telling time Counting money Reading charts and graphs Adding and subtracting numbers up to 20 And so much more! Skip to the pages that suit your child's needs and learning style or start at the beginning and advance page by page; it's up to you! As the workbook progresses, the problems become more challenging so that learners of all levels can enjoy an exciting, skill-building math adventure. Perfect for Minecrafters who learn at all paces, Math for Minecrafters is as fun as it is educational; and is just what your little learner needs to get ahead academically! This adventure series is created especially for readers who love the fight of good vs. evil, magical academies like Hogwarts in the Harry Potter saga, and games like Minecraft, Terraria, and Pokemon GO.

## Customer Reviews

Amanda Brack is also the illustrator of the Creeper Diaries series and the Jokes for Minecrafters series from Sky Pony Press. She has a passion for drawing and illustration, and enjoys the creativity of working on a wide variety of projects in her freelance career. She lives in Boston, Massachusetts.

Won't say why I bought this, or who for, specifically. But they love it. Cause it's mindless math and it's Minecraft, and they love trying out new educational product regardless of grade level/age. So this got to them. And they want more. So bring us a full-year real world MineCraft Curriculum! in math. Cause like math and Minecraft can't be beat. :(

My 7 year old is happy we found this book. He hates math workbooks but loves Minecraft and enjoys doing math if it's not a plain page full of questions. We will be using this book in tandem with the thinking tree Minecraft curriculum and I think it'll go wonderfully
