Simple History: The Russian Revolution

Synopsis

The Russian people had suffered under the terrible Tsars for centuries. So they revolted! Step into early 20th century Russia and experience what it was like for soldiers, workers and peasants as their country was led by Lenin into a Communist revolution.

Customer Reviews

Fully Illustrated snippets of history presented in a most engaging manner complete with a brief quiz at the end. To have artwork along with factual info on a subject I might not ordinarily pursue made it all the easier going down. I did have to resort to a pan-and-scan technique by zooming the book to 150% so as to make the wording more legible on my black-and-white kindle but still glad to have been able to read this book and given it ends with Lenin's death and the words "Joseph Stalin persuaded everyone that he should be the next leader of the Soviet Union, but that's another story..." I guess it's a good thing I'm wanting to own them all. Very good book!

My 9 year old son is a total geography/history nerd. He usually read and re-reads books like this multiple times. However, he told me he did not like book at all. He looked at once and has not

picked it up again. He said the book did not give enough information about the Russian Revolution and was very boring. I give it two stars instead of one because at least they attempted to make a children's book on the Russian Revolution. I have not been about to find another child appropriate book on the matter.

The history of Russia is illustrated in a very engaging manner. Its written in plain English, very easy to understand. And the graphics (images) are awesome. Good read!

Exactly what my grandson was looking for. Very pleased. The seller was a pleasure to deal with. Quick delivery. Highly Recommend!!!

This was a really cool book, I enjoyed all of the graphics and the history
