Elements Of Argument: A Text And Reader

Synopsis

Elements of Argument teaches students how to approach, develop, and defend arguments one element at a time. This comprehensive, accessible text carefully scaffolds argument for students, explaining approaches to argumentation, (including Aristotelian, Toulmin, and Rogerian models as well as Stasis Theory questions), critical reading, and argument analysis. The major components of argumentation—claims, support, assumptions, logic—are explained in depth, and a robust research section shows students how to find, incorporate, and build on existing arguments. This Twelfth Edition has also been updated with more sourced readings than ever before, further reinforcing the importance of research and synthesis. Finally, the anthology includes debates and casebooks on unsettled current issues as well as timeless, classic arguments, making Elements of Argument a comprehensive resource for the argument classroom. Elements of Argument is available with LaunchPad Solo for Readers and Writers. By combining formative and summative assessments with opportunities to study, practice, and review specific skills, LaunchPad Solo for Readers and Writers provides instructors with a quick and flexible solution for targeting instruction on critical reading, the writing process, grammar, mechanics, style, and punctuation based on students' unique needs. Students will gain confidence by working through sequenced units that guide them from concept to mastery. At home or in class, students learn at their own pace, with instruction tailored to individual learners. This textbook was a pleasure to read. It has timely, albeit liberally

slantedÃfÂçÃ â ÑÃ â •articles and excerpts, which foster critical thinking and interest most people. The information presented was clear and well-explored. I now feel more comfortable with the formal elements of argument. Thanks Rottenberg!

I'm still taking my class. But renting this book was affordable and was in a very good condition. It's paperback, so it did have minor bends and folds. No missing pages or markings.. As far as the textbook, great layout and easy to comprehend and learn even without instruction. I currently use this book for an online class. I would recommend renting through after my first time. Great experience, looking forward to completing my classes this semester.

Rented this book for my writing course. This book strongly met and exceeded my expectations as it covered many interesting topics, especially topics that are very controversial in this day. I had no problems with this textbook as it came in good condition, especially for the price. Had absolutely no problems with the rental process as it was hassle free.

It came in great condition.

Good

Fits just as described

As described.

It's what I needed for one of my classes in school. Thank you for delivering this to me on time!
