Customer Reviews

No matter one's political leanings this book should be read by everyone interested in US politics because it is so darn interesting. Mr. Klein certainly has the background to have made the acquaintance of many of his interviewees, but it is unbelievable how many personal friends of the Obamas & Clintons he was able to persuade to be interviewed - even anonymously! I've become an Edward Klein follower!

This is who we have in the White House??!! So sad so many Americans can't see how deceitful and power hungry these deplorable people are. We should all wake up! WAKE UP AMERICANS!!

Cements my belief that all politicians are liars and crooks. If even half of the book is true I don't know how either the Obamas or the Clintons could have said the flowery wonderful things about each other during the recent election.

I chose this book after reading other 're v views and was happy I did. This book told it like it was and gave me a blind acted feeling because of my own thoughts about the Obamas and Clinton. Fast read, I read it in two sittings that would have been one if I hadn't started it so late. I still stayed up till four in the morning because I d o i l y dent want to stop reading. Great book and very informative and personal.

I do not usually read this type book. However, a friend suggested I read it with the election coming up. I read it and wish some other people would read it too and find out what has gone on with our officials and how it could keep going. It was an eye opener for me!

This book was fast reading and I simply could not put it down. However, I walked away from the book wondering "Does any politician really care about the American people. I don't think so".

Very well told the truth about how corrupt the Clintons are and hateful the Obama's are!! Very fact telling.

Great insight into the Obamas And Clintons and how they really feel about each other and how little Obama is engaged in the parts of governing he abhors. Maybe the worst President the US has ever elected.
