Customer Reviews

This adventure series caught my attention with the first book and has not stopped. This book we

learn more about Kaos, Dagger and the wives the boys are marrying, along with the "mother", Erica Fischer. There is a bit of a change up in this book with Lily showing up- she is not the one that is matched up for Kaos and there is another chink in that armor. I hope this comes back up in another book. Unlike many other series, these books don't start fading as the series continues but instead leave you wanting more. I can't wait for the next one! I was given a copy of this book for my honest review.

WOW!! What an exciting set of adventures and mystery mixed with also some romance, too! I found it hard to set it down once I had begun reading it. I recommend this as a clean short story for five stars and for young adults. I received this ebook free and in return, here is my honest review. Great work Suzanne! By Angela
