Law Of Judicial Precedent

Synopsis

The Law of Judicial Precedent is the first hornbook-style treatise on the doctrine of precedent in more than a century. It is the product of 13 distinguished coauthors, 12 of whom are appellate judges whose professional work requires them to deal with precedents daily. Together with their editor and coauthor, Bryan A. Garner, the judges have thoroughly researched and explored the many intricacies of the doctrine as it guides the work of American lawyers and judges. The treatise is organized into nine major topics, comprising 93 blackletter sections that elucidate all the major doctrines relating to how past decisions guide future ones in our common-law system. The author's goal was to make the book theoretically sound, historically illuminating, and relentlessly practical. The breadth and depth of research involved in producing the book will be immediately apparent to anyone who browses its pages and glances over the footnotes: it would have been all but impossible for any single author to canvass the literature so comprehensively and then distill the concepts so cohesively into a single authoritative volume. More than 2,500 illustrative cases discussed or cited in the text illuminate the points covered in each section and demonstrate the law's development over several centuries. The cases are explained in a clear, commonsense way, making the book accessible to anyone seeking to understand the role of precedents in American law. Never before have so many eminent coauthors produced a single lawbook without signed sections, but instead writing with a single voice. Whether you are a judge, a lawyer, a law student, or even a nonlawyer curious about how our legal system works, you're sure to find enlightening, helpful, and sometimes surprising insights into our system of justice.

Customer Reviews

An amazing book. It's an essential read for anyone concerned with the state of the law. --Robert C. Berring University of California, Berkeley, School of LawGarner has enlisted a cast of judicial luminaries to examine the tools in the judicial toolbox. The result is both illuminating and, well, unprecedented. --Samuel Issacharoff New York University School of LawDon't let the size of this book scare you off! You'll keep dipping into it for wit and wisdom. --Yale Kamisar University of Michigan Law SchoolâœThis book should be at the elbow of judges, lawyers, and others who want a sure guide to the uses of precedent.â•âœ A.E. Dick Howard University of Virginia School of LawâœClearly written, fully supported by caselaw, and impressively argued throughout, this book sheds new light on an important subject.â•âœ Richard Helmholz University of Chicago Law SchoolâœAn admirable work of legal literature. This book is a pleasure to read, from page 1 to page 783.â•âœ Ross E. Davies George Mason University School of LawâœGarner and his stellar panel of judges have written the bible on the role of case decisions and precedent in law.â•âœ Paul F. Rothstein Georgetown University Law Center

It's a good read. I haven't practiced in a long time, but read and apply case law regularly. The book helps characterize the thinking attorneys do with respect to applying precedent. It labels and classifies all the things attorneys do to distinguish, apply, extend, or narrow the law. I wish I could have read it oh so many years ago when I started out as a fresh faced federal judicial law clerk! It's a real accomplishment.

To me, a practicing federal lawyer at the front lines of the American judicial process, this rare, heavily-referenced nuanced work by its highly-accomplished legal minds, is undoubtedly an absolute legal masterpiece. I can already see that this masterpiece will be an invaluable weapon in my daily battle for evanescent Justice and judicial respect for the rule of law. Incredibly, the sale price of less than \$50.00, despite the obvious Herculean amount of work that went into this legal treatise, makes this an incredible bargain! Most legal treatises containing this vast amount of work and variety of authoritative contributors sell for ten times that amount. Though I am barely 1/4 of the way into this richly detailed book - Chapter 21. Per Curiam Opinions and Summary Dispositions at page 214 - I already know that this book will remain at my desk for daily reference for a very, very long time to come. Authors: Thank you.

It is absolutely brilliant book. The most comprehensive guide to precedent. Also must admit that it's

not only for US legal practitioners. Despite the fact that most examples are from the US courts this book is helpful for any lawyer who works in legal system that recognized legal precedent.

Thank you to Mr. Garner for another important book.

Great book! Highly recommended.

The best single-volume source for the law of precedent.

Terrific book - lots of insight!

A masterly tome. Buy it.
