Calling Cards: Uncover Your Calling

Synopsis

Calling Cards are an interactive tool built to accompany the book *The Power of Purpose and Work Reimagined*. Using the cards exposes a reader to many different skills, asking him or her to reflect on their own strengths. The reader then chooses several that reflect their greatest assets. The reader is finally taken through an exercise that uses the results to help identify a new life calling. Additionally, the tool can be played by a friend or family member to offer multiple perspectives to help the reader gain deeper insight into his or her own gifts.

He is a Carlson Executive Fellow at the University of Minnesota School of Management and co-chairman of the Linkage/Global Institute for Leadership Development.

Not a perfect system, but will probably put you on the right track if you are searching for your life's calling. I recommend reading this author's books "Life Reimagined" and "Work Reimagined". These cards are intended to supplement those books, which can definitely help you gain insight into discovering what you were meant to do with your life. The cards themselves can be a little confusing, but will probably function as a vague guideline. Interesting, to say the least.

This is a great tool to help you figure out what your calling may be. I recommend this for people searching within as to what they should do to make them happy.

Excellent idea. Didn't help me discover anything I didn't already know/ thought about. I can see how it can help the novice looking for direction.

Absolutely terrific for creating your personal mission statement.

Love these cards for personal career development as well as using for leadership with staff.

Great tool for students pondering career paths

Great graduation gift for a high schooler confused about what to study in college or someone looking to change career paths or just for the fun of it!

Insightful
