## Customer Reviews

"The biggest strength of Uneven Roads is its ambitious and long-overdue attempt at filling a gap in the textbook market where no other book takes such a long and broad look at race and ethnicity in our history." -- Anirudh V.S. Ruhil "Uneven Roads is extremely well-written and easy to understand - it introduces students to important concepts and ideas without a lot of jargon. It is also very thorough and weaves contemporary issues and current events throughout the text." -- Atiya Stokes-Brown

"Uneven Roads is truly excellent. There is no doubt in my mind that this book will impact the field for many years to come. Authors Shaw, DeSipio, Pinderhughes, and Travis are all eminent scholars in political science, and the way that this book is written shows why! It is well-written, engaging, and provides the reader with thoughtful analyses of some of the most important questions in racial and ethnic politics in America." -- Alvin B. Tillery, Jr.

Todd Shaw, College of Arts & Sciences Distinguished Associate Professor of Political Science and African American Studies at the University of South Carolina, Columbia, researches and teaches in the areas of African American politics, urban politics and public policy, citizen activism and social movements. Louis DeSipio, Professor of Political Science and of Chicano/Latino Studies at the University of California, Irvine, examines how democratic nations incorporate new members,

including policymaking in the areas of immigration, naturalization, and immigrant settlement. Dianne Pinderhughes, Professor of Political Science and of Africana Studies at the University of Notre Dame, studies inequality in racial, ethnic, and gender politics and public policy, the creation of American civil society institutions in the twentieth century, and their influence on voting rights policy. Toni-Michelle C. Travis, Associate Professor of Government and Politics at George Mason University, researches urban politics and race and class issues in politics. She also teaches on Virginia politics and American government.

A good product. Nothing wrong. I would recommend it to every one. G o o d p r o d u c t.

I got this for school. I am not a political science major, but so far I am enjoying the textbook.

I rented this book for a Political Science class regarding the topic in the title. I rated this a two for a few reasons: 1) While the book discusses the barriers that minorities dealt with in the past, the book makes it seem like minorities are still held down and have many barriers. 2) While the authors did their research and presented facts to support their ideas, they also left out many details. I suspect most of them are because it would break the narrative of the book.

The writing is drier than paint in a desert. It's as if the writer decided to put a bunch of facts together in paragraph format. Professors and intellectuals may love it, but students will probably have their minds dying of stylistic boredom. Sorry, not sorry. It's just not well written. Would you read Shakespeare if it was painstakingly boring? No. You wouldn't.

This text is a good primer for all of those trying to give an overview of race and ethnicity in American politics. It's pretty comprehensive and well-researched. Kudos to the authors.
