## **Customer Reviews**

I bought this to use as a visual aid with clients in my skin care practice. I treat a lot of acne and also live in a warm climate where sun protection is a necessity. Though basic, this flip chart is a great visual aid and will no doubt benefit my consultations and post treatment explanations. I shared it on an esthetics group I admin on Facebook and it has since sold out. I do think you should honor pricing to all, not just Prime members!!

Use this to show my clients how their skins working or what's causing certain conditions in their skin before their facials. They love it!

A great book for an office that works in aesthetics and skin . Can easily assist the patients to understand thei skin problems .

So informative. Great to use with my facial clients to explain different concerns. Perfect for the advanced or novice.
